

PADI Advanced Diver Course

OVERVIEW

The PADI Advanced Open Water course is designed to strengthen and reinforce the practical skills and knowledge of an Open Water Diver and can be completed directly after completion of the PADI Open Water diver course.

PREREQUISITES

- PADI Open Water Diver or equivalent

COURSE DETAILS

The PADI Advanced Open Water course is conducted over one full weekend during which you will complete a total of 5 dives covering skills such as navigation, deep, boat, wreck, drift and buoyancy.

Day 1 - This is one evening where your instructor will go through the knowledge reviews you completed at home. You will also sort out your diving gear for the weekend.

Day 2 - Today you will do two or three dives. One of these will be a navigation dive, where you will learn more compass skills as well as natural navigation. You will also do one or two other adventure dives, these will be selected depending on the dive site being used.

Day 3 - You will do two or three dives today. One will be a Deep Dive, where you get to see what it's like when you go down to a maximum of 30m.. Again depending on the dive site, other adventure dives may include.

- Wreck
- Peak performance buoyancy
- Drift
- Fish ID
- Night
- Boat
